LOWA
simply more...

BIG STEPS TOWARDS THE FUTURE

One hundred years as a leading brand in outdoor footwear has been a great milestone to celebrate – but now it's time to turn our attention to year 101 and the beginning of LOWA's next century!

The fundamentals that have brought us success will continue – and as always, that starts with innovation and new products. Building the vast majority of our outdoor boots and shoes in Europe will remain core to our brand. Maintaining exceptional quality and fit, and delivering attentive service to retailers and consumers alike is always a priority. Building brand awareness, creating demand, and helping sell-through are constants.

LOWA's heart and soul remains in the mountains, and we're excited to introduce two lightweight mountain boots: the **Vajolet GTX Mid** and the **Mangart GTX Mid**. Both use technical materials and designs that allow mountaineers to climb and traverse faster and lighter. The **Tibet** family of backpacking/hunting boots has been reworked, with an updated midsole/outsole package featuring the VIBRAM® Aptrail Divo outsole for better comfort and performance underfoot. In the core Trekking category we're introducing the **Randir GTX Mid** and **Corvara GTX Mid**, both built on the new VIBRAM® Cornerstone outsole – a rugged outsole that screams grip and traction. The result is an adventurous new look and performance level for this category.

In our All Terrain Classic category, we're introducing the **Innovo GTX Mid** and **Innovo Mid**. These athletically inspired hiking boots offer lightweight fabric/leather options for faster adventures and an aggressive sole design inspired by MTB tires. The open, breathable mesh Innovo Mid is a great option for hikers in warm and drier regions where breathability is key.

Research shows that walking's popularity, which surged during the pandemic, continues to grow. The new **Innox Evo II GTX** is an ideal walking shoe with a lightweight microfiber/synthetic upper, a dual density DynaPU® midsole and grippy outsole. If your customer is into #slowhiking, #forestbathing or birding, this is the shoe for them! At LOWA, one of our competitive advantages is that we have shoes tuned for specific activities and supportive PU midsoles that are ideal for walking. They're stable, all-day comfortable and long lasting.

Perhaps our most notable innovation is the **All Terrain Run (ATR) by LOWA line**, starring **Citux**, **Amplux** and **Fortux** trail running models. ATR represents our brand's most radical shift in decades, notably because we made an exception to our "Made in Europe" business plan. Since the components needed for trail running shoes are not available in Europe, the ATR line is designed by our team in Germany, and is produced in Vietnam, at one of the industry's best sport shoe manufacturers. ATR models feature multi-density EVA midsoles for better shock absorption at speed, full-length rubber outsoles for superb traction and long life, and uppers reinforced with PU overlays to add durability and great foot hold. **Citux & Amplux** models have carbon-reinforced rebound plates for energy return and rock protection underfoot. As with all LOWAs, ATR models carry our 100 years of outdoor DNA and footwear know-how. We're excited about finally being able to bring LOWA's track record of quality, fit and innovation to a new athletic, younger audience in one of the world's fastest growing outdoor activities.

The future is bright and we thank you for your past support. Thank you for joining us as we take the next step. Now it's time to run!

Your friends at Team LOWA USA

EXPEDITION 8000 EVO RD

MSRP: \$1250

Our most protective and insulated mountaineering boot was developed in collaboration with LOWA Pro Team member Ralf Dujmovits for extreme high altitude expeditions. It's loaded with technical features to keep your feet protected, warm, dry and comfortable on even the most punishing climbs, and has been worn on every 8000 meter peak in the world. The insulated double boot with reflective-coated technologies retains valuable body heat while the high outside TIZIP closure on the ceramic-coated fabric gaiter provides essential waterproof protection and durability. Automatic crampon compatible.

- Upper:** Abrasion-Resistant Synthetic Fabric w/ Full-length TIZIP
- Lining:** Textile, PrimaLoft® 400g
- Insole:** Insulate Pro
- Midsole:** Dual Density EVA, Automatic crampon (C3) compatible
- Outsole:** VIBRAM® DOLENT - HIGH ALPINE
- Weight:** 1400g/Single Shoe
- County of Origin:** Italy

EXPEDITION 6000 EVO RD

MSRP: \$975

We collaborated with renowned mountaineer Ralf Dujmovits to develop the Expedition 6000 Evo RD, designed for 6,000 meter peak expeditions. It's loaded with technical features to keep your feet protected, warm, dry and comfortable at high altitude, including an insulated double boot with reflective-coated technologies to retain valuable body heat. The high outside TIZIP closure on the ceramic-coated fabric gaiter provides essential waterproof protection and durability, and the high wall rubber rand protects against abrasion. Automatic crampon compatible.

- Upper:** Abrasion-Resistant Synthetic Fabric w/ Full-length TIZIP
- Lining:** Fabric, PrimaLoft® 200g
- Insole:** Insulate Pro
- Midsole:** DuraPU®, Automatic crampon (C3) compatible
- Outsole:** VIBRAM® DOLENT
- Weight:** 1300g/Single Shoe
- County of Origin:** Italy

ALPINE ICE GTX

MSRP: \$695

This high performance alpine boot with an integrated gaiter is designed with a close-to-ground outsole, an anatomical fit feature that uses memory foam to contour to the foot's shape to help prevent fatigue, and a slingshot heel for secure foothold, comfort and rock feel. Very stiff underfoot, insulated yet extremely light in weight for a low altitude mountaineering boot, and automatic crampon-compatible, this is truly a "Formula One" boot for mixed climbing and low altitude expeditions. Featuring a durably waterproof/breathable GORE-TEX lining to protect feet from the elements.

- Upper: Abrasion-Resistant Synthetic Fabric w/ Full-length TIZIP
- Lining: GORE-TEX, GORE-TEX DURATHERM®
- Insole: Insulate Pro
- Midsole: Low Profile DuraPU®, Automatic crampon (C3) compatible
- Outsole: VIBRAM® ALP TRAC® ICE
- Weight: 875g/Single Shoe
- County of Origin: Italy

ALPINE EXPERT II GTX

MSRP: \$475

This versatile, insulated boot's ankle design has been tweaked to allow for slightly softer, easier ankle flex when traveling uphill, but its best-selling concept remains the same, balancing comfort with durability. The Alpine Expert II GTX is a high performance yet walkable mountaineering boot, making it ideal for ice & mixed climbing, lower elevation alpine travel as well as heavy winter backpacking trips. Automatic crampon-compatible. Featuring a durably waterproof/breathable GORE-TEX lining to protect feet from the elements.

Upper: Mountaineering Split Leather, Microfiber
 Lining: GORE-TEX, PrimaLoft® 400g
 Insole: Insulate Pro
 Midsole: DuraPU®, Automatic crampon (C3) compatible
 Outsole: VIBRAM® ALP TRAC® ICE
 Weight: 905g/Single Shoe
 County of Origin: Italy

KIDS

KODY EVO GTX MID JUNIOR

MSRP: \$140 / \$150

We designed the Kody in conjunction with a renowned pediatric orthopedist to answer the need for a high-quality and comfortable children's outdoor boot that would make hiking fun. Key to its success is its lateral stability that helps prevent ankle rolling, and a roomy toe area to prevent little toes from feeling crowded. This boot features an updated midsole/outsole package for even more stability and traction, and fun new upper graphics.

Upper: Split Leather, Fabric
 Lining: GORE-TEX
 Insole: ATC
 Midsole: DynaPU®
 Outsole: VIBRAM® RENEVO II

LOWA TECHNICAL FEATURES – GLOSSARY

Uppers & Interior Constructions

ANATOMICAL ANKLE LINES

ANATOMICAL ANKLE LINES

An asymmetrically shaped upper edge precisely reflects the ankle's anatomy, preventing pressure points.

ANATOMICAL FIT

ANATOMICAL FIT

The anatomical shape of this carbon fiber insert wrapped in PU foam provides natural arch support and better fit.

C4-TONGUE

C4-TONGUE

The anatomically shaped, padded tongue is designed to improve ankle flex and decrease pressure points, for all-day comfort.

CERTIFIED

CERTIFIED

Certified to the European Union's PPE requirements in accordance with EN ISO 202347:2012 standards.

FIT RIBBON

FIT RIBBON

The minimalistic lacing strip produces both the highest level of functionality and maximum weight reduction. The two directly interwoven bands are easy to tie and the lacing is optimally threaded. In selecting the material, LOWA focused on the durability and toughness of the straps.

FLEXFIT®

FLEXFIT®

Easier ankle movement due to integrated "FlexZone" and flexible lace.

ISOLATED INNER BOOT

ISOLATED INNER BOOT

A removable inner boot equipped with a PrimaLoft® or GORE-TEX membrane.

Uppers & Interior Constructions

LEATHER LINING

LEATHER LINING

Thanks to its natural qualities, leather lining provides the foot with wearing comfort and a pleasant foot climate. Its adaptability, durability and absorbability make a leather lining the lining of choice for comfort-oriented outdoor fans.

LOWA REPTEX

LOWA REPTEX®

Abrasion-resistant PU "scales" mimic a reptile's protective skin and helps protect the boot's upper, in turn reducing weight on models where light weight is paramount.

HEEL STABILIZER

HEEL STABILIZER

As a firm support element, this anatomically shaped heel counter increases stability in the area of the heel and ensures a secure fit throughout the entire stride.

PADDED EDGING

PADDED EDGING

Extra padding around the cuffs of our women's trekking boots ensures extra comfort on long hikes.

REPTEX SPORT

REPTEX® SPORT

PU coating protects the upper from damage by scree and sharp rocks, while reducing the overall weight for even better performance.

MINIMAL SEAMS

MINIMAL SEAMS

Construction design minimizes the number of seams to prevent possible friction or pressure points

Uppers & Interior Constructions

SHOCK ABSORBER

SHOCK ABSORBER

Every time a foot is planted, the heel can absorb many times the body's weight. To reduce this stress and to make heel support even more comfortable, a heel cushion was developed for the shank as a way of creating a pleasant walking sensation.

SLINGSHOT

SLINGSHOT

Provides a very snug fit around the heel.

TEXTILE LINING

TEXTILE LINING

A textile lining is pleasantly lightweight. The textile material is durable, easy to care for and comfortable.

WATERPROOF ZIPPER

WATERPROOF ZIPPER

Protects against moisture and cold in extreme conditions.

Midsoles

DOUBLE INJECTION

Comfort and cushioning is further improved for specific uses with a complex injection-molding process using a layering process.

DYNA**EVA**

DYNEVA

A very lightweight midsole material that provides excellent cushioning by absorbing the forces that occur during heel strike combined with a dynamic and efficient rebound due to its structure.

DURA**PU**

LOWA® DURAPU®

This denser PU material is used in our Classic & ATC models. It absorbs shock and rebounds well, and is extremely durable.

DYNA**PU**

LOWA® DYNAPU®

LOWA's proprietary PU midsole material is extremely lightweight yet provides ideal support, durability and rebound.

DYNA**PU**+

LOWA® DYNAPU®+

LOWA's proprietary PU midsole, now available for cemented, board-lasted sole construction. It's extremely lightweight, yet provides ideal support, durability and rebound.

Midsoles

MONOWRAP®

Our exclusive PU frame technology delivers outstanding stability and support. We use three different PU frame designs to provide lateral support. The higher the frame, the more support.

SINGLE INJECTION

This manufacturing method of injection molding offers the highest precision with a direct and solid connection between the sole and the upper.

Lacing

2-ZONE LACING

Independently adjustable lacing zones, one on the forefoot and one on the upper, allow user to customize the lacing tension and do special foot-hold lacing techniques.

FIT WING

The shell-like construction of the sole envelops and secures the foot to provide optimal fit.

I-LOCK

A cam lace-loop placed at the top of the foot that grabs the lace and holds it tight, for secure and flexible shaft lacing.

LOWA FLEX®

Upper construction with freely moving, individually mounted lace hooks provides a more individualized fit and allows the lacing system to flex as you walk, for better comfort.

ROLLER EYELETS

Metal eyelets with small rollers minimize friction, equalize tension.

X-LACING®

Patented LOWA technology holds the tongue in place, both vertically and horizontally, preventing slippage and pressure points and blisters.

X-LACING® LIGHT

A special lacing system secures the boot's tongue using a lightweight metal-plastic composite. Our X-LACING Light, made of a metal-plastic composite, combines the best features to create a lightweight yet strong functional component with a sporty character.

LOWA TECHNICAL FEATURES – GLOSSARY

Outsoles

CLIMBING ZONE

CLIMBING ZONE

This flat support zone under the toes makes easy scrambling possible thanks to a more secure foot placement.

CLOSE TO THE GROUND

CLOSE-TO-THE-GROUND

A lower-profile platform for better sole contact with ground.

CLOSE TO THE ROCK

CLOSE-TO-THE-ROCK

Flatter toe profile is designed to keep the distance between foot and ground as small as possible, or precise toe-hold.

LOWA PU SOLE

LOWA PU OUTSOLE

Conceived and developed by LOWA, this PU outsole has a tread design with varying lugs based on intended use. This outsole is used in particular for children's outsoles because it offers a good blend of lightness and abrasion resistance.

LOWA RUBBER SOLE

LOWA RUBBER OUTSOLE

Conceived and developed by LOWA, this rubber outsole varies in its rubber blend has a tread design with varying lugs, both factors based on intended use. Ideal for off-trail use.

REBOUND PLATE

REBOUND PLATE

Our lightweight carbon reinforced plate under the forefoot delivers an energy return at every step and offers protection from rocks and roots on the trail.

Footwear Stiffness

VERY STIFF

FOOTWEAR STIFFNESS

We build our boots with varying degrees of flexibilities depending upon their intended use.

STIFF

MODERATELY STIFF

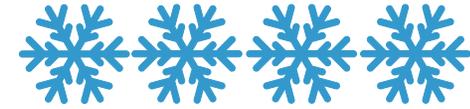

FLEXIBLE

VERY FLEXIBLE

Cold Weather Boots

Insulated cold weather footwear for winter days with VERY COLD conditions.

- PrimaLoft® 400g insulation adds extra warmth.
- Insulated insole protects from cold underfoot.

These models are insulated for winter days with COLD conditions.

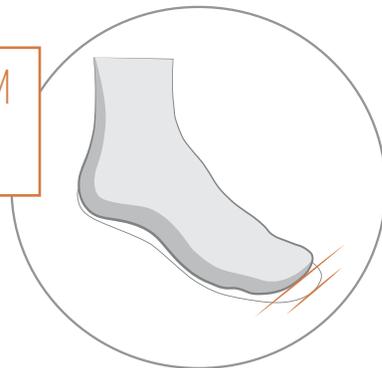

- GORE-TEX Partelana® warm synthetic-wool keeps your feet warm and dry.
- Insulated fleece insole protects against chill from below.

LOWA EXTRA TOE ROOM
 Kids 12 mm
 Adults 15 mm

LOWA recommends based on the foot length (mm) an extra toe room of 15 mm for adults (12 mm for kids). Due to individual foot shapes or preferences in fit this recommendation may vary.

The foot length (mm) is a recommendation of LOWA, which is based on scientific findings.

QUALITY
ASSURANCE**

We build our boots under the European Union's most stringent manufacturing, environmental and labor regulations. We put into practice what many other companies only pay lip service to: Clean manufacturing, minimal waste and fair labor practices. Learn more about our Corporate Responsibility practices at lowaboos.com/corporate-responsibility. LOWA is proud to be granted ISO 9001 status for the highest quality construction and process standards.

LOWA
simply more...

LOWA boots are warranted to be free from defects in workmanship and materials for a period of 12 months from the date of purchase. Your exclusive remedy for break of such warranty is repair or replacement of your LOWA boots at LOWA's discretion. If your LOWA boots need repair or replacement due to defect in workmanship or materials, simply return them to the LOWA dealer where you purchased them. You will need proof of purchase. Make sure that your return request falls within 12 months from the date of purchase.

- See our website at www.lowaboos.com for directory listing of our dealers and warranty FAQ's. Please note that fit, paint thinner and lawn chemicals void the warranty.
- "Fit" is not covered in the warranty. You do the fitting, not us!

All product weights are single shoe weights based on men's 9, women's 6.5 for cemented-construction models and 7 for injected-construction models, and kids 31. Color and product details subject to change. MSRP - this pricing is subject to change without notice. When in doubt, please refer to the Outdoor Collection 2024 Price List for final pricing. Actual colors may vary from printed catalog.
